Batches of Cookies (6.2.C.6.4)

Illustrative Mathematics

6.4: Batches of Cookies

A recipe for one batch of cookies uses 5 cups of flour and 2 teaspoons of vanilla.

1. Show the amount of flour and vanilla needed for 1, 2, 3, 4, and 5 batches of cookies. (There are multiple ways to do this)

1. If you use 20 cups of flour, how many teaspoons of vanilla should you use?
