Price of Bagels (6.2.D.12.5)

Illustrative Mathematics

12.5: Price of Bagels

A shop sells bagels for \$5 per dozen. You can use the table to answer the questions. Explain your reasoning.

number of bagels
12

price in dollars
5

1. At this rate, how much would 6 bagels cost?

2. How many bagels can you buy for \$50?
